

INTRODUCTION

DPB is a protective box that can be used when installing the differential pressure regulator DPL to conceal and protect the ends of the pressure hose, which would otherwise be exposed in the space where the pressure is to be measured. The box is mounted on the wall or ceiling where the pressure hose extends into the room.

DPB - Protective box, front facing the space.

DPB - The back against the wall.

TECHNICAL SPECIFICATIONS

General

Dimensions (mm): 80x40x20 mm (LxWxH).

Material: ABS.

Net Weight: 0.02 kg.

Color: Gray
